Ekonomi Mesjid (Studi kasus pada Mesjid Ba'alawi, Kecamatan
Simpang Ulim, Aceh Timur)

Penelitian ini bertujuan untuk Menganalisis Peran Pedagang Sekitar Mesjid Terhadap Penguatan Ekonomi Mesjid (Studi kasus pada Mesjid Ba'alawi, Kecamatan Simpang Ulim, Aceh Timur). Data diperoleh dari observasi dan wawancara dengan informan. Metode yang digunakan menggunakan pendekatan kualitatif deskriptif. Hasil penelitian menunjukkan bahwa pedagang yang berada disekitar mesjid memiliki peran penting dalam mendukung dan menguatkan perekonomian mesjid. Pedagang tersebut tidak hanya menyediakan kebutuhan bagi jaamah mesjid, tetapi juga berkontribusi finansial melalui partisipasi kegiatan atau donasi untuk mesjid. Kehadiran mereka meningkatkan aktivitas ekonomi disekitar mesjid, yang pada gilirannya turut mendukung keberlanjutan dan pengembangan mesjid sebagai pusat kegiatan sosial dan keagamaan. Kondisi ekonomi mesjid ba'alawi dengan adanya para pedagang yang berjualan disekitar cukup bagus dapat membantu mesjid dalam hal membangun infrastruktur yang memadai, membuat perputaran ekonomi masyarakat disekitar mesjid, menarik minat pihak luar untuk menjalin kerjasama dengan mesjid, pendapatan wakaf dan sumbangan, memberi pelayanan bantuan sosial, dan gotong royong.

Title : Analysis of the Role of Traders Around the Mosque Towards Strengthening the Mosque Economy (Case study at Ba'alawi Mosque, Simpang Ulim District, East Aceh)

This study aims to analyze the role of traders around the mosque towards strengthening the mosque economy (case study at Ba'alawi Mosque, Simpang Ulim District, East Aceh). Data were obtained from observations and interviews with informants. The method used uses a descriptive qualitative approach. The results showed that traders around the mosque have an important role in supporting and strengthening the mosque's economy. The merchants not only provide the needs of the mosque's congregation, but also contribute financially through activity participation or donations to the mosque. Their presence increases economic activity around the mosque, which in turn supports the sustainability and development of the mosque as a center for social and religious activities. The economic condition of the ba'alawi mosque with the merchants selling around is good enough to help the mosque in terms of building adequate infrastructure, making the economic circulation of the community around the mosque, attracting outside parties to cooperate with the mosque, waqf income and donations, providing social assistance services, and mutual cooperation.
