Judul : Pengaruh *Leverage, Systemic risks, Company size, Growth Opportunity* dan *Company Profitability* terhadap *Earning Response Coefficient* Pada PT Astra International Tbk

Penelitian ini bertujuan untuk melihat Pengaruh *Leverage, Systemic risks, Company size, Growth Opportunity* dan *Company Profitability* terhadap *Earning Response Coefficient* Pada PT Astra International Tbk. Data yang digunakan dalam penelitian ini adalah data sekunder selama periode Triwulan I 2005 sampai Triwulan IV 2022. Metode yang digunakan untuk menganalisis hubungan antara variabel independent yang terdiri dari *Leverage, Systemic risks, Company size, Growth Opportunity* dan *Company Profitability* terhadap *Earning Response Coefficient* sebagai variabel dependen adalah metode analisis data time series pendekatan ARDL dengan bantuan Eviews Versi 10. Hasil penelitian menunjukkan bahwa leverage dalam jangka pendek dan jangka Panjang tidak berpengaruh terhadap *Earning Response Coefficient*. *Systemic risks* dalam jangka pendek berpengaruh negatif dan signifikan terhadap *Earning Response Coefficient* sementara dalam jangka panjang *Systemic risks* tidak berpengaruh terhadap *Earning Response Coefficient*. *Company size* dalam jangka pendek berpengaruh positif dan signifikan terhadap *Earning Response Coefficient* sementara dalam jangka panjang *Company size* tidak berpengaruh terhadap *Earning Response Coefficient*. *Growth Opportunity* dalam jangka pendek berpengaruh positif dan signifikan terhadap *Earning Response Coefficient* sementara dalam jangka panjang *Growth Opportunity* tidak berpengaruh terhadap *Earning Response Coefficient*. *Company Profitability* dalam jangka pendek dan jangka panjang tidak berpengaruh terhadap *Earning Response Coefficient*.

Kata Kunci: *Leverage, Systemic risks, Company size, Growth Opportunity* dan *Company Profitability, Earning Response Coefficient*.

ABSTRACT

Judul : *The influence of Leverage, Systemic risks, Company size, Growth Opportunity and Company Profitability on the Earning Response Coefficient at PT Astra International Tbk*

This research aims to see the influence of Leverage, Systemic risks, Company size, Growth Opportunity and Company Profitability on the Earning Response Coefficient at PT Astra International Tbk. The data used in this research is secondary data during the period from Quarter I 2005 to Quarter IV 2022. The method used to analyze the relationship between independent variables consisting of Leverage, Systemic risks, Company size, Growth Opportunity and Company Profitability on Earning Response Coefficient as a variable dependent is a time series data analysis method using the ARDL approach with the help of Eviews Version 10. The research results show that leverage in the short term and long term has no effect on the Earning Response Coefficient. In the short term, systemic risks have a negative and significant effect on the Earning Response Coefficient, while in the long term, systemic risks have no effect on the Earning Response Coefficient. In the short term, company size has a positive and significant effect on the Earning Response Coefficient, while in the long term, company size has no effect on the Earning Response Coefficient. Growth Opportunity in the short term has a positive and significant effect on the Earning Response Coefficient, while in the long term Growth Opportunity has no effect on the Earning Response Coefficient. Company Profitability in the short term and long term has no effect on the Earning Response Coefficient.

Keywords: *Leverage, Systemic risks, Company size, Growth Opportunity and Company Profitability, Earning Response Coefficient.*
