Title : The Influence of Event Sponsorship, Brand Ambassador, and Brand Exposure in Maintaining Brand Image (Case Study of Wardah Cosmetics among Universitas Malikussaleh Students)*

This study aims to assess the influence of event sponsorship (X1), brand ambassadors (X2), and brand exposure (X3) on the brand image (Y) of Wardah products cosmetics among female students at Universitas Malikussaleh. The sampling method used was purposive sampling, with a total of 104 respondents. Primary data was collected through questionnaires. The data analysis techniques employed include multiple linear regression analysis, classical assumption tests, instrument tests (validity and reliability), determination tests (R^2), and hypothesis testing (T) using SPSS 25 software. The results indicate that, partially, event sponsorship has a positive and significant effect on brand image, brand ambassador does not have a significant effect on brand image, and brand exposure has a positive and significant effect on brand image.
