Title : Analysis of the role of Bumdes in improving the welfareof the tanjong masjid village community

Tanjong Masjid village has types of businesses which are divided into various units. The Tanjong Mosque village-owned business entity has been in operation since 2015 but has not been maximized in all areas. The aim of this research is to find out how the development of village-owned enterprises improves community welfare. The research method in this study uses qualitative methods. The informants in this research were the head of the Tanjong Mosque village, the secretary of the Tanjong Mosque village, the treasurer of the Tanjung Mosque village, the manager of a business entity belonging to the Tanjung Mosque village. Data collection techniques used observation and interviews as well as documentation. The results of this research indicate that business entities owned by the Tanjung Mosque village have maximized their efforts to improve community welfare. Such as upholding Islamic values in every activity in the village of Tanjung Mosque. Apart from that, the Tanjung Mosque village community can participate in increasing community welfare. Apart from that, the village head and budes managers collaborate in improving community welfare.

Keywords: Village-owned enterprises, Welfare, Community.
